## Registration Steps

Select the choir you would like to register for by clicking on its colorful logo or the text below it.

At this point, you will need to create an account to proceed with registration. Click the orange **Sign up** button.

Enter your information, check the box, and click **Create account**. Like it says on that page, if you are registering a child for VR2, use your own info here; there will be a chance to enter the child's name later.

Scroll down and choose a picture from your device to upload:

A screenshot of a profile picture upload interface. At the top, there is a dark purple header with the word "Picture" in white. Below the header is a light gray area. On the left side of this area is a circular placeholder for a profile picture, containing a gray silhouette of a person's head and shoulders. To the right of the placeholder, the text "Upload picture" is displayed. Below this text is a file selection input field with a "Choose File" button and the text "No file chosen". Underneath the input field, there is a line of smaller text: "Your virtual face or picture. Pictures larger than 400x200 pixels will be scaled down."

*Note: When you add a photo, the name of the photo file will show up where it says "No file chosen" but the thumbnail image will not update until you scroll all the way down and click **Save**.*

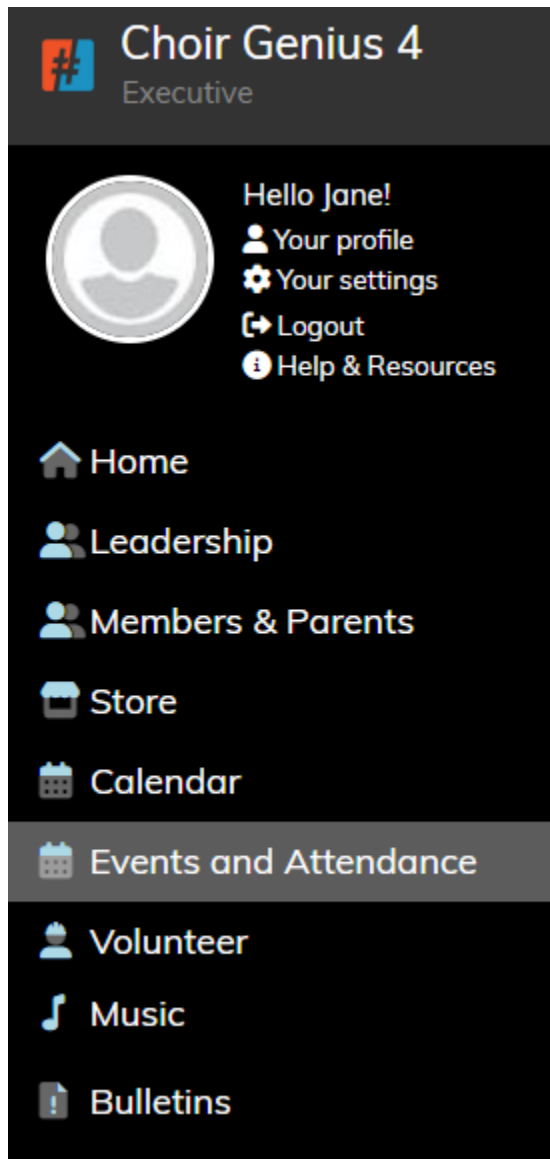

Scroll down a bit more and add or update your emergency contact information, then scroll all the way to the bottom and click **Save**.
